

Cats - we have had such a week with cats at work it is amazing. Back in January a very skinny bag of bones cat came up and captured our heart. We began to watch her fill out, and then oh no, she became pregnant. Terrible weather came, she had the babies and one week later, it was pouring rain and flooding everywhere. We wondered if the kittens even survived. But come around May they made themselves known. First one, and then another until all four showed up. Since June we have tried to make appointments for them all to be fixed, but this and that kept getting in our way.

Finally this week we were able to capture Momma and two kittens were taken to Alley Cats for surgery. Two days later one more was captured and taken for surgery. This left poor Tiger all by herself. We tried to trick her, bribe her, and to no avail. Finally after two days of no food, and being by herself, we put out some food, and she came. We were able to grab her and take her to the surgery center.

Christians are sometimes like Tiger. Instead of allowing someone to help them, they get off by themselves, they are without food, and all alone. Tiger could have been hurt, attacked or even killed because she was by herself. Christians can be hurt, attacked or even killed if they forget to come together with Brothers and Sisters.
