

We have a Mama Cat and four baby kittens at work. They are so cute! We feed them and make sure they have water, a bed to sleep on and in the next week or so, we will take them to the Doctor. We have worried about them in the weather when it was pouring rain, and when it was extremely hot. But the Lord began to ask me - Why? They are only animals. Do we care as much for people around us?

In today's world there are many hurting people. We have witnessed the destruction of drugs, throw away kids, and modern life and treat these people as less than the kittens in my office. I believe it is time for the church to rise up and rescue these people from the prison they are in. If we spent the time in prayer - would we see a difference? I think so! Yes I know so!
