

In our city you can usually find some interesting traffic situations. We were coming home one evening beside a very souped up car. You could tell he was wanting to take off and run down the road. As we turned down Scenic we could see ahead of the cars in front of the "muscle" car, the police were just ahead. Everytime a car in front of our friend would move aside or turn, they would try to speed up, only to have another car come in front of them. This kept our friend to the speed limit and out of trouble.

It made me realize that sometimes things are placed in our life to keep us out of trouble. When we are young, our Parents are there to hold us back, and as we grow older rules at school and the law keep us reined in. But there comes a time when we are given the freedom to make choices - We must decide what our boundaries are going to be. The Holy Spirit will guide us, but it is ours. So which way will you go - Take off and get that ticket - or stay in the boundaries the Father has placed for us?
